

BRISTOL WEST QUICK FACTS: eEVERYTHING FOR PERSONAL AUTO

E is for “easy,” “electronic” and “efficient.” Let’s look at all the ways Bristol West Auto is putting the “e” in everything, online and on-the-go for you and your Auto customers.

HIGHLIGHTS THAT MAKE US STAND OUT:

Mobile-Enabled Website

According to The 2017 Digital Future Report, adults spend an average of 23.6 hours online and 82% of internet users access the internet from a mobile phone. That’s why BristolWest.com is mobile-enabled and the easiest way for customers to access and manage their policy information on a mobile device. *Customers can also view billing information, make payments and view policy ID cards right from their smartphone or tablet.*

Text Alert Payment Reminders

We all need reminders from time to time. Text Alert Payment Reminders can be helpful to both you and your customers. When your customers elect to receive text reminders, links to our mobile website and IVR are included within the text message so they can easily pay their bill. Customer retention increases significantly for customers who receive Text Alerts and it can free up more time for you to sell.

eSignature

Coordinating a time with a customer to come into the office to sign policy forms can be a hassle. Our eSignature solution is a real-time, “click to sign” way to collect a customer’s signature for policy documents. This convenient, mobile-friendly feature can save you and your customer’s valuable time and effort. Plus, our eSignature verification process is simple from start to finish with automatic reminders prompting your customer to complete the process. *This means minimal follow up for you and it greatly reduces E&O exposure from unsigned forms.*

Policy Alerts

A productivity enhancement we’ve added to IAProducers.com just for you. The IAProducers.com home screen includes policy alerts when you have any customer policies that are at risk of cancellation for non-payment or underwriting reasons. *Policy alerts are dynamic and only show up on the home screen if you have policies that require action.*

Claims Photo App

Customers can use our photo app to upload pictures to complete an appraisal. This saves time and the hassle of scheduling an appointment to meet an appraiser or get to a body shop for an estimate. It often leads to a quicker resolution of a claim.

EFNOL (Electronic First Notice of Loss)

Customers can notify us of a new claim and get status updates through our website 24/7.

Paperless Payments

We offer the convenience of paperless billing for customers who prefer to receive their bills and policy documents via email. *In many states we even offer a discount for customers who sign up to “Go Paperless.”*

Comparative Raters

Our rates are available on many popular comparative raters, or you can quote and book business directly on IAProducers.com

Log in to IAProducers.com today to quote and book Foremost Auto policies.

*Not all policies, discounts, coverages and features are available in all states.
